

The LM Arm Dual from Novus holds two monitors in tandem for display on a TSS column. The monitors can be displayed horizontally or stacked vertically.

Included with the LM Arm Dual is an adaptor for mounting on a TSS column and two Quick Release monitor mounts. With Quick Release, simply click the monitors in place and tilt to the perfect viewing angle. Slide the mounts along the cross bar to accommodate different monitor sizes. The LM Arm Dual in the horizontal position rotates 180 degrees for further adjustment.

With a reach of 6.77", the LM Arm Dual supports two monitors, each weighing up to 15 pounds.

Cable clips are included to maintain a neat, organized appearance.

Requires a TSS column.

Item Number	Base Option	Capacity	Range
980+0279+000	TSS Column Mount	2x 15 lbs	6.77"
