

Dual monitors are commonplace in most offices. They encourage productivity and help us stay organized. But traditional monitor stands take up valuable work space. The modular Tetra Support System (TSS) of columns, monitor arms, and accessories lifts technology off the work surface, creating space and allowing for full ergonomic adjustments.

The TSS Duo holds two monitors in multiple configurations – side-by-side, on top of one another, or in opposing directions for shared workspaces. Designed for stability and strength, the TSS Duo can hold two monitors weighing up to a total of 24 pounds even-

ly distributed over each support arm. The TSS Duo includes two TSS folding arms III and one 17.52" TSS column with system clamp. Easily adjust for height, horizontal position, reach, and monitor tilt for the perfect viewing angle. The 4-channel column allows for more TSS arms, mounts, and accessories to be added as needed.

All TSS support arms are equipped with a rolling ball joint attached to a Quick Release monitor mount – simply click the monitor in place and tilt to the perfect viewing angle. Cable routing clips are included to ensure an organized appearance.

Item Number	Height	Base Option	Capacity	Range
220+0060+000	17.52"	System Clamp 1	24 lbs	19.88"

**FEATURES**

- Adjustability: horizontal position, monitor angle, height
- Carrying capacity: 24 lbs evenly distributed over each support arm
- Range, folding arm III: 19.88"
- Column height: 17.52"
- System clamp mounts on tables from .55" to 1.57" in thickness
- High-quality aluminum and metal construction
- Cable clips keep cables under control
- German engineered for quality and longevity
- Mounting standard: VESA 75/100
