

Modern work stations need to be organized, comfortable, and flexible. The modular Tetra Support System (TSS) of columns, monitor arms, and accessories lifts technology off the work surface, creating space and allowing for full ergonomic adjustments.

The TSS Basic provides an ideal starting point for a single monitor workstation. The TSS Basic includes the TSS folding arm III and the 17.52" TSS column with a system clamp. Designed for stability and strength, the TSS Basic can hold one monitor weighing up to

26 pounds and can be adjusted for height, reach, horizontal position, and monitor tilt for the perfect viewing angle. The 4-channel column allows for the addition of more TSS arms, mounts, and accessories as needed.

All TSS support arms are equipped with a rolling ball joint attached to a Quick Release monitor mount – simply click the monitor in place and tilt to the perfect viewing angle. Cable routing clips are included to ensure an organized appearance.

Item Number	Height	Base Option	Capacity	Range
220+0050+000	17.52"	System Clamp 1	26 lbs	19.88"

**FEATURES**

- Adjustability: horizontal position, monitor angle, height
- Carrying capacity: 26 lbs
- Range, folding arm III: 19.88"
- Column height: 17.52"
- System clamp mounts on tables from .55" to 1.57"
- High-quality aluminum and metal construction
- Cable clips keep cables under control
- German engineered for quality and longevity
- Mounting standard: VESA 75/100
